INTERNATIONAL JOURNAL OF GEOGRAPHICAL INFORMATION SCIENCE

EDITOR

Professor Brian G. Lees,
School of Physical, Environmental & Mathematical Sciences,
University of New South Wales,
Australian Defence Force Academy,
Northcott Drive,
Canberra ACT 2600,
Australia
Tel: +61 2 626 88314
Email: b.lees@adfa.edu.au

North American Editor:

Professor May Yuan,
College of Atmospheric and Geographic Sciences,
Department of Geography,
The University of Oklahoma,
Sarkeys Energy Center, Room 618,
100 East Boyd Street,
Norman, Oklahoma 73019-1008, U.S.A.
Tel: (405) 325-4293 office
Email: myuan@ou.edu

European Editors:

Dr Monica Wachowicz,
Centre for Geo-Information,
Wageningen University,
P.O. Box 47, 6700 AA,
Wageningen,
The Netherlands
Email: monica.wachowicz@wur.nl

Dr. Ir. S. (Sytze) de Bruin,
Wageningen University,
Centre for Geo-information,
P.O. Box 47,
6700 AA Wageningen,
The Netherlands
Tel: +31 (0)317 - 481830
Email: sytze.debruin@wur.nl

Book Review Editor:

Dr Alexis Comber,
Director of the MSc in GIS,
Department of Geography,
University of Leicester,
Leicester LE1 7RH,
United Kingdom
Email: ajc36@leicester.ac.uk

Editorial

Just another node...
Brian Lees 1

Research Articles

Spatially enabling governments through SDI implementation
I. Masser, A. Rajabifard and I. Williamson 5

Embedding sustainable development strategies in agent-based models for use as a planning tool
X. Li and X. Liu 21

WinBasin: Using improved algorithms and the GIS technique for automated watershed modelling analysis from digital elevation models
W.-T. Lin, W.-C. Chou, C.-Y. Lin, P.-H. Huang and J.-S. Tsai 47

Grassroots groups as stakeholders in spatial data infrastructures: challenges and opportunities for local data development and sharing
S. Elwood 71

Automated spot heights generalisation in trail maps
J. Palomar-Vázquez and J. Pardo-Pascual 91

Automated catena-based discretization of landscapes for the derivation of hydrological modelling units
T. Francke, A. Güntner, G. Mamede, E. N. Müller and A. Bronstert 111

Web service approaches for providing enriched data structures to generalisation operators
M. Neun, D. Burghardt and R. Weibel 133

Raster modelling of coastal flooding from sea-level rise
B. Poulter and P. N. Halpin 167

Identifying factors of geographic event conceptualisation
A. Klippel, M. Worboys and M. Duckham 183

Multi-scale and multi-criteria mapping of mountain peaks as fuzzy entities
Y. Deng and J. P. Wilson 205

Volume 22 Number 3 March 2008

Special Issue: Geographical Information Retrieval
Guest Editors: Christopher B. Jones and Ross S. Purves

Editorial

Geographical information retrieval
Christopher B. Jones and Ross S. Purves 219

Research Articles

Geographic intention and modification in web search
Rosie Jones, Wei V. Zhang, Benjamin Rey, Pradhuman Jhala and Eugene Stipp 229

An empirical study of the effects of NLP components on Geographic IR performance
Nicola Stokes, Yi Li, Alistair Moffat and Jiawen Rong 247

Using co-occurrence models for placename disambiguation
Simon Overell and Stefan Rüger 265

On metonymy recognition for geographic information retrieval
Johannes Leveling and Sven Hartrumpf 289

A conceptual density-based approach for the disambiguation of toponyms
Davide Buscaldi and Paulo Rosso 301

Location approximation for local search services using natural language hints
S. Schockaert, M. De Cock and E. E. Kerre 315

A comparison of geometric approaches to assessing spatial similarity for GIR
Patricia Frontiera, Ray Larson and John Radke 337

Volume 22 Numbers 4–5 April–May 2008

Research Articles

Reducing uninteresting spatial association rules in geographic databases using background knowledge: a summary of results
V. Bogorny, B. Kuijpers and L. O. Alvares 361

A new approach to quantifying spatial contiguity using graph theory and spatial interaction
X. Wu and A. T. Murray 387

Exploring potential human activities in physical and virtual spaces: a spatio-temporal GIS approach
H. Yu and S.-L. Shaw 409

Population-density estimation using regression and area-to-point residual kriging
X. H. Liu, P. C. Kyriakidis and M. F. Goodchild 431

Sweep-line algorithm for constrained Delaunay triangulation
V. Domiter and B. Žalik 449

The effect of instructions on distance and similarity judgements in information spatializations
S. I. Fabrikant and D. R. Montello 463

Hierarchical lane-oriented 3D road-network model
Q. Zhu and Y. Li 479

Seeking the Pareto front for multiobjective spatial optimization problems
B. Huang, P. Fery, L. Xue and Y. Wang 507

A spatiotemporal data model for dynamic transit networks
R. Huang and Z.-R. Peng 527

Modelling three-dimensional geoscientific fields with the Voronoi diagram and its dual
H. Ledoux and C. M. Gold 547

Sensitivity analysis of spatially aggregated responses: A gradient-based method
F. J. Pantus, N. Ellis, H. P. Possingham and W. Venables 575

Volume 22 Numbers 6–7 June–July 2008

Research Articles

Spatial optimization as a generative technique for sustainable multiobjective land-use allocation
A. Ligmann-Zielinska, R. L. Church and P. Jankowski 601

Towards a General Field model and its order in GIS
Y. Liu, M. F. Goodchild, Q. Guo, Y. Tian and L. Wu 623

Least visible path analysis in raster terrain
M. Lu, J. F. Zhang, P. Lv and Z. H. Fan 645

Extensions of GAP-tree and its implementation based on a non-topological data model
C. Cheng, F Niu, J. Cai and Y. Zhu 657

An analysis of urban spatial structure using comprehensive prominence of irregular areas
C. Zhang 675

Spatially modelling pathways of migratory birds for nature reserve site selection
J. A. Downs and M. W. Horner 687

Gauss Krüger projection for areas of wide longitudinal extent
C. E. Turiño 703

Cartographic support for locational problem-solving by groups
M. P. Armstrong and P. J. Densham 721

A simplicial complex-based DBMS approach to 3D topographic data modelling
F. Penninga and P. J. M. Van Oosterom 751

A flexible multi-source spatial-data fusion system for environmental status assessment at continental scale
P. Carrara, G. Bordogna, M. Boschetti, P. A. Brivio, A. Nelson and D. Stroppiana 781

Regionalization with dynamically constrained agglomerative clustering and partitioning (REDCAP)
D. Guo 801

Framework for probabilistic geospatial ontologies
S. Sen 825

Volume 22 Numbers 8–9 August–September 2008

Research Articles

Cartographic generalisation of lines based on a B-spline snake model
E. Guilbert and E. Saux 847

Image-based quality assessment of road databases
M. Gerke and C. Heipke 871

SRTM resample with short distance-low nugget kriging
C. H. Grohmann and S. S. Steiner 895

3D noise mapping in urban areas
J. Stoter, H. De Kluijver and V. Kurakula 907

Effects of DEM resolution and source on soil erosion modelling: a case study using the WEPP model
J. X. Zhang, K.-T. Chang and J. Q. Wu 925

Using neural networks and cellular automata for modelling intra-urban land-use dynamics
C. M. Almeida, J. M. Gleriani, E. F. Castejon and B. S. Soares-Filho 943

Generalized network Voronoi diagrams: Concepts, computational methods, and applications
A. Okabe, T. Satoh, T. Furuta, A. Suzuki and K. Okano 965

Earthquake-induced landslide hazard monitoring and assessment using SOM and PROMETHEE techniques: A case study at the Chiufenershan area in Central Taiwan
W.-T. Lin 995

Exploring spatial data uncertainties in land-use change scenarios
N. Dendoncker, C. Schmit and M. Rounsevell 1013

Book Reviews

Disease Mapping with WinBUGS and MLwiN (Andrew B. Lawson *et al.*)
R. Smith 1031

3D Cadastre in an International Context (J. Stoter and P. van Oosterom)
G. Navratil 1033

GIS Fundamentals: A First Text on Geographic Information Systems (Paul Bolstad)
S. Ambinakudige 1035

Spatial Analysis, GIS, and Remote Sensing Applications in the Health Sciences (Donald P. Albert *et al.*)
R. Smith 1037

Volume 22 Number 10 October 2008

Special Issue: Digital Gazetteer Research
Guest Editors: M. F. Goodchild and L. L. Hill

Introduction to digital gazetteer research
M. F. Goodchild and L. L. Hill 1039

Research Articles

Modelling vague places with knowledge from the Web
C. B. Jones, R. S. Purves, P. D. Clough and H. Joho 1045

Georeferencing locality descriptions and computing associated uncertainty using a probabilistic approach
Q. Guo, Y. Liu and J. Wieczorek 1067

From named place to naming event: creating gazetteers for history
R. Mostern and I. Johnson 1091

Automated conflation of digital gazetteer data
J. T. Hastings 1109

The role of ontology in improving gazetteer interaction
K. Janowicz and C. Keßler 1129

Volume 22 Numbers 11–12 November–December 2008

Research Articles

GIS-based multicriteria spatial modeling generic framework
S. Chakhar and V. Mousseau 1159

Prediction and visualization of GPS multipath signals in urban areas using LiDAR Digital Surface Models and building footprints
J. Li, G. Taylor, D. Kidner and M. Ware 1197

Designing sound in cybercartography: from structured cinematic narratives to unpredictable sound/image interactions
S. Caquard, G. Brauen, B. Wright and P. Jasen 1219

A bottom-up approach to discover transition rules of cellular automata using ant intelligence
X. Liu, X. Li, L. Liu, J. He and B. Ai 1247

Fuzzy inference guided cellular automata urban-growth modelling using multi-temporal satellite images
S. Al-Kheder, J. Wang and J. Shan 1271

An initial formal model for spatial data infrastructures
J. Hjelmager, H. Moellering, A. Cooper, T. Delgado, A. Rajabifard, P. Rapant, D. Danko, M. Huet, D. Laurent, H. Aalders, A. Iwaniak, P. Abad, U. Düren and A. Martynenko 1295

Book Review

Cartographies of Travel and Navigation (J. R. Akerman)
A. Cameron 1311
